

A group of diverse people, including a woman in a blue blazer and a man with a beard and glasses, are clapping and smiling. The background is blurred, showing other people in a workshop setting.

BANK OF AMERICA 

Community Education Workshops

Community Education Workshops

Bank of America is building on its commitment to communities through educational offerings that help prepare individuals for a career, foster economic mobility, build skills and inspire career confidence.

Community Education Workshops Q1-2025

Thriving Mind

Designed to help learners recognize patterns in the ways they think, feel and behave in moments of extreme stress and how to respond in ways that better serve them.

Economic Mobility Basics

Developed to introduce and direct learners to financial wellness resources to enable them to make smart financial decisions and plan for the future.

Banking Essentials

Designed for individuals interested in learning what a career at a financial services firm and at Bank of America could look like.

Communications

Designed for those interested in exploring and improving communication skills in an office environment.

Workplace Conduct

Equips learners with an understanding and tools to practice workplace conduct, foster strong working relationships and achieve personal and professional success.

Grow Your Career

Serves as a road map of best practices needed to attain the job you want. This workshop is ideal for individuals looking to elevate their professional skills to grow their career.

Credit Basics

Designed for those interested in building their credit knowledge foundation and understanding key skills needed to support the credit process.

Time Management

Teaches key concepts of time management and task prioritization to better manage life priorities and accomplish your goals.

Critical Thinking

Introduces learners to the basic concepts of what critical thinking is, the benefits and barriers to using it, and the basic process.

Customer Interactions

Tailored for those interested in improving their ability to interact with and meet the needs of customers.
